### **DETAILED ACTION**

The response filed on 05 January 2004 has been entered and overcomes the rejection of claims 1-10.

#### ***Allowable Subject Matter***

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest the different component layers are not formed at the same time, but are formed sequentially (for example, the dielectric layer is formed after the address electrodes, the sandblasting stoppers are formed after the dielectric layer, the rib material layer is formed after the sandblasting stoppers, etc.) along with the other limitations of the claim.
3. Due to their dependency, claims 2-10 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
